OVER 200 WANT ORPHAN BABY

An Advertisement in The Herald Brings Home for El Paso Child.

WANTED—"A good home for one black haired, blue eyed baby boy."

This advertisement was placed in The Herald several days ago by Mrs. C. A. Gonzales, a trained nurse, stating that a home was desired for a little orphaned baby boy. The next day there was a steady stream of callers, and Mrs. Gonzales, after being called to the door several times in quick succession, took her post at the door and received the applications of those who wanted the babe.

And not only that, but about 11 o'clock the postman bore into sight with 25 applications by letter from points as far east as Del Rio and as far north as Las Cruces and many other

points in the valley of the Rio Grande. Others have been received daily since the baby was advertised. In all, over 200 applications were received from hungry hearted persons who wanted the little black haired blue eyed baby boy to have a place in their hearts and homes.

How to select one of the 200 as fit to take and care for the motherless babe was the weighty question which Mrs. Gonzales had to solve. King Solomon, who was as wise as king Cole was jolly, once had a similar question to adjudicate, according to the bible. But his job was easy compared to this. After investigating the ability to provide for the babe of the many applicants, the babe was finally awarded and is now the monarch of an El Paso home.

SAYS THEY RECEIVE PRESENTS FROM RAILWAYS

Texas Congressman Wants Government Officials Taken to Task for Friendships with Railroads.
Washington, D. C., June 14.—Charg- ing that representative Parker of New Jersey, chairman, and other members of the committee on the judiciary were "receiving gifts," franks, employment and other consideration of great and pecuniary value from railroads, to the extent of disqualifying them from passing on a bill to prohibit congressmen and judges from receiving such gifts from the railroads, or other corporations, representative Ramsdell of Texas brought before the house committee on privilege a resolution to re- volve the measure referred to the committee on judiciary and have it immediately reported back to the house.

STRIKING SECTION MAN IS EVICTED BY THE G. H.

San Antonio, Texas, June 14.—Joseph Noite, a striking section foreman on the Southern Pacific, was evicted here today from section house premises by the order of court on a writ of sequestration, after he held forth against all comers since the walkout was declared. The writ was granted by Judge Seeligson in the 57th district court on the petition of the railroad company. When the strike was declared, Noite declined to vacate and has refused to permit representatives of the road to take charge of the property.

THE STRIKERS FIRM IN FIGHT ON THE G. H.

President and Chief of the Strikers Thanks Herald For Fairness.

Valentine, Texas, June 13.

Editor El Paso Herald.

I have read your kindly reference to the striking trackmen of the Southern Pacific lines in Texas, and write to thank you for the same. Almost at the moment your items had been read the following telegram was received from our temporary headquarters at the Bristol hotel in Houston, whence our secretary treasurer Gibb is in charge:

"First division swept clean from Houston to Glidden. Huddleston still in the fight."

This is the division on which a small army of officials have been working with all the zeal which a desire to ingratiate themselves with their superior officials could inspire them. Their tables told to keep the foremen in the dark as to actual facts and the little short of devilish, one especially which stated that Mr. Huddleston had applied for his section at Rosenberg, being beyond the bounds even of the foulness said to be fair in war. Huddleston promptly denied the falsehood in a telegram to the Houston Post as follows: "Wish to correct statement in today's Post that I had applied for reinstatement as foreman in Rosenberg. Have been offered several positions on this line but declined to accept them. You can state that the fight is to serve my comrades to a finish. C. Huddleston."

It is largely due to Mr. Huddleston and his good work that the line has been "swept clean."

Just why the Southern Pacific officials prolong the controversy from which, even if they win, the only result for them will be the loss of their best men, is a mystery to me. I have offered them both before and after the strike began that if they would meet the committee of their maintenance of way employees and discuss with them their proposed schedule of rules and rates, any points on which they could not agree to be submitted to arbitration, I would advise the committee to call off the strike and would also advise that the matter of an increase in rates be left in abeyance in the meantime.

This offer still holds good and any action either of the press or public, or the railway companies which will end the unnecessary risk to the engine and trainmen and the traveling public will have all the assistance which we can render. We are striking for a principle and will return to our accustomed posts of duty whenever our officials meet our committee as they meet other committees of other employees and stop the dismissal of our members simply because they hold membership in our organization. Just why the railway company refuses us either of these rights and prefers to let its patrons risk their lives and limbs as they must under present conditions, is certainly a mystery to me.

Our men are standing out bravely, and I am holding public meetings, a series of them, informing the public of the reasons why these men are on strike. I may, if the strike is prolonged, have the pleasure of a visit to the good town of El Paso for the same purpose and will count it a privilege to call and thank in person for the friendly notice of a very estimable body of employees making a manly fight for the very ordinary human right of belonging to any religious, political or industrial organization with which they may choose to associate themselves, without any dictation from any railway official. Trusting the pressure of public opinion and the justice of these men's claims may soon bring an end to the present conditions now existing in the Texas lines of the Southern Pacific railway.

I am yours sincerely,

A. B. Lowe,

President International Brotherhood of Maintenance of Way Employees.

STRIKE BREAKERS GO ON STRIKE

21 Mexicans Refuse to Work Longer at Sanderson. Statements of the Strikers.

Sanderson, Texas, June 14.—Twenty-one Mexicans laid down their tools here yesterday afternoon and joined the other strikers. This leaves the company without a man on this section. This last bunch that went out had been working about three days and were sent in from El Paso. After all, it seems that the company is going to have a hard time making its reports stick that there is no more strike—that it is all over. This makes more than 100 men that have been sent in since the inauguration of the strike and they claim they will not resume work.

A. B. Lowe, president of the International Brotherhood of Maintenance of Way, passed through here en route to Valentine and Alpine, to address the striking employees of the G. H. He will return to Sanderson and address the citizens here Wednesday night, explaining the causes that led up to the strike.

A non-union gang is at work on the Sanderson section, but this is the only point near where such steps have been taken. A Mexican is acting as foreman and the men are kept in a boarding car, the company not yet having possession of the section house. Jas. Shaughnessy, who was recently promoted to assistant roadmaster from section foreman, is assisting the Mexican foreman with the work of breaking the new men in.

A. C. Smith, former foreman at this point, has gone to Sabinal to a barbecue where a number of striking foremen from the San Antonio district have been invited by the company officials. The rangers are still here, but there is absolutely no foundation for the report that there is likely to be violence here. Everyone greatly regrets the unpleasantness of Saturday, when a rafter forcibly ejected Rev. F. G. Cox, the Methodist pastor here, off the right of way.

The strikers still maintain great

hopes of ultimately winning the strike, and they say there is no foundation whatever for the report that has been given out by superintendent Wald that the strike has been broken. They declare that the company will not be able to secure Americans enough who are competent to build the foremen's places and they also report that the company officials have weakened to the point of again asking them to return to work under the old system, offering all the old men their places back. They are firm, however, and they will return only after their right to join a labor union has been granted.

Jesse McKie.

ORIENT ANNOUNCES SUTTON EXTENSION

San Antonio, Tex., June 14.—Definite announcement was made this morning that the proposition made by the Orient railway to the citizens of Sonora, Sutton county, to build a line there, has been accepted. Sutton county will buy \$200,000 worth of bonds and donate 160 acres of land. The line is already under construction to Del Rio and from San Antonio and the contract calls for its completion to Sonora within two years.

SUPPLIES RUSHED FOR S. P. EXTENSION TO TEPEC

Bridge Across Santiago River May Go Out at Any Time, Mazonian Merchant Buys for Grant Bros., the Contractors.

Mazonian, Mexico, June 14.—Carlos L. Volquardsen, head of Heymann Bros., of this city, the largest hardware and implement establishment on the Pacific coast of Mexico, has been making big shipments of supplies for the Southern Pacific extension in Tepec, the Grant Bros. Construction company, which is building the extension, is having supplies rushed across the Santiago river in anticipation of the early opening of the rainy season. The temporary bridge across the Santiago is expected to go out with the first high water in the river, and after that it will be impossible to transport heavy materials across the stream until the close of the rainy season in the fall.

The distance from the Santiago river to the city of Tepec is 96 kilometers. There is some heavy work to be done, and it will require several months to complete the extension to the Tepec capital. The contractors expect to carry on construction through the rainy season.

BISBEE AND DOUGLAS MAY GET SLEEPING CAR ACCOMMODATIONS

It is probable that Bisbee and Douglas, Ariz., will soon have sleeping accommodations to the coast on the Golden State Limited. Under present conditions people from those points are compelled to wait for some time at the end of the strike and then the question of sleeping accommodations on the Southern Pacific is very uncertain.

The matter was taken up by the people of Bisbee with the general passenger agent of the Southern Pacific through agent J. E. Graves, at Bisbee and the passenger department has replied that the Southwesters has secured the consent of the Rock Island to the inauguration of sleeping car service, Douglas and Bisbee to Los Angeles, on the Golden State Limited, semi-weekly. The matter is now up to the Southern Pacific, Southwestern officials state.

SOLDIERS PASS THROUGH EL PASO TUESDAY NIGHT

The three trains bearing the Fourth Infantry, destined for Fort Crook and Legan, at Omaha, Neb., and Fort Logan H. Roots, at Little Rock, Ark., will arrive, according to the schedule, by railroad officials, at 10, 12 and 12:30 o'clock Tuesday night. The trains will be transferred to the Southern Pacific and over the Rock Island to headquarters in Omaha, Neb., was in El Paso Tuesday and will superintend the handling of the troops over his line.

NEW RULES FOR TRAINMEN ON SOUTHWESTERN SYSTEM

Conductors and brakemen on the Western division of the Southwestern have been notified that in the future they must ask for lay-offs, and also report for duty in person to the trainmaster, the terminal trainmaster or the chief dispatcher. The new rules do not cover the phone. Sick reports must be made in writing.

ADVERTISEMENTS EL PASO

A pocket map, distributed by the Sunset-Central route, shows the state of Texas in minutest detail, as well as the larger part of Mexico. New Mexico, Louisiana and Mississippi map margin shows train No. 6 of the S. P., entering El Paso, and other interesting scenes along the route.

ABOUT RAILROAD PEOPLE

Conductor Drew, of Sanderson, a G. H. employee, is not in the city. He has been employed as an operator and has gone to Tucson to take up his duties there.

Cecil P. Hostetter, commercial agent of the Orient, has returned from Arizona and northern Mexico, where he has been on the Bonanza & Sonora property. He has returned to work after laying off several months on account of illness.

H. P. Bonner, commercial agent of the Trinity & Brazos Valley railway, with headquarters at Galveston, was in the city Tuesday.

DEATHS AND BURIALS

W. H. NORTON, 61 years of age, died Monday at a local hospital. Surviving are a widow and two sons. The body will be shipped to Alpine by McBean, Simmons & Carr.

JOHN H. DAVIS

John H. Davis, a New York banker, died Tuesday morning in an El Paso hospital. He was assistant cashier of the Seaboard National Bank, New York city. A brother employed in the same bank, has been notified by McBean, Simmons & Carr, who are in charge of the body.

WOULD USE AEROPLANE FOR CARRYING MAIL

BH Introduced in National House to That Effect by Congressman Sheppard of Colorado. House of Representatives, Washington, D. C., June 14.—Congressman Morris Sheppard, of Texas, wants the postoffice department to try aeroplanes for carrying the mails and today introduced a bill providing for the use of an air craft from Washington to some point at the discretion of the postmaster general.

VISITS BROTHER

Robert S. Fletcher, Jr., secretary of the Merchants' association of Jackson, Tenn., is visiting with his brother, John Fletcher.

MINING AND OIL NEWS.

TOMBSTONE NAMED AS RESULT OF JEST

Camp Found by Grubstaked Prospectors—Grubstake a Thing of the Past.

Grubstaked the prospector was formerly a general custom among business men in mining towns throughout the west, and in Denver, San Francisco and Tucson, a prospector could always count on a grubstake, which usually consisted of a pack and kit, provisions, tools and sufficient money for contingencies. The firm of L. Zeckendorf, the largest business house of Tucson, never refused the prospector a grubstake.

Al Scheiflin, when in El Paso many years ago, explaining how the mines of Tombstone were found and how the name originated, said: "When my brother Ed reported to Dick Gird and myself his rich discovery over in the Burro mountains, we all went to Zeckendorf's in Tucson and asked him to stake us, was offering to include his name in the location notices posted on whatever claims we secured. 'You can have anything you need, boys,' Zeckendorf replied. 'It has always been my custom to grubstake prospectors, but I don't ask you to put my name in the location notices. If you have luck you will repay me, but I hate to see you fellows go out to that mountain. It is swarming with Apaches, and instead of finding silver, I'm afraid you will find your tombstones.'"

"We persisted, however," Scheiflin also stated, "and he fitted us out with everything we asked for. When we located the claims we did not forget to put Zeckendorf's name in the notices, and, remembering his remarks that we might find our tombstones, we named the new town Tombstone."

"Zeckendorf's grubstake brought him millions of dollars out of his interests in our claims."

RICH GOLD STRIKE MADE AT DUNCAN

Ore Runs From \$250 to \$300 Per Ton—Many Prospectors at Work.

Clifton, Ariz., June 14.—The new gold strike in the Carlisle mining district, 15 miles north of Duncan, Ariz., by Slim Isabel and Lem Spaw and others, has created intense excitement around Duncan and Clifton. The men have sunk a shaft about 20 feet deep, showing rich gold ore the entire depth. The ledge is 20 feet wide, and the rich vein is six feet wide, assaying, according to samples, from \$250 to \$300 per ton, and in narrower streaks the ore runs in the thousands of dollars per ton, the gold being visible and free and well disseminated throughout the quartz vein matter.

Frank Elcheibeger, the discoverer of the celebrated King of Arizona mine, near Yuma, Arizona county, Ariz., as reported the territorial auditor for tax assessment purposes, totals \$521,365.48 for the year ending 1909. This is really an eleven months' production, as the ledge was sunk down for a month on account of fire.

This is the highest return made by any gold mine in Arizona and is the production of a 50 ton mill, and with halting prospects elsewhere.

The North Star, located two miles from the famous King of Arizona mine and 50 miles from Yuma, is owned by the Golden Star mine company, capitalized in New York at \$10,000,000, and has been operated a little over two years since the purchase of the claims from Felix Mayhew and associates for \$250,000, the highest price ever paid for an undeveloped prospect. The company will this year pay \$125,000 taxes.

CALUMET & ARIZONA TO DEVELOP COBRE PROPERTY

Contract Awarded to Sink Shaft North of Cananea—Field Located in Lead-Silver-Zinc Zone.

Cananea, Son., Mex., June 14.—Col. L. W. Powell, manager of the Calumet & Arizona Mining company, has awarded a contract to J. J. Evans of this city to sink a shaft on the Bonanza & Sonora property of the company, located north of the city in the lead-silver-zinc zone. Work has commenced. The location of the shaft will be in the vicinity of the Calumet & Sonora property, and there is no doubt but that ore will be encountered, as there are three or four veins on the property which resemble closely those on the property of the Calumet & Sonora company. Several small holes were sunk several years ago and all contain good ore and splendid indications for making a mine.

DEVELOPMENT FOR SIERRA COUNTY, N. M., PROPERTIES

The Snake mine in the southern part of the Black Range, Sierra county, N. M., has been unwatered, is being re-mined and new lease will be commenced to connect the 425 level with the 500 level. Good ore bodies are exposed in the vein south of the main shaft.

The American Gold Mining company has leased the Bonanza claim and is operating the old stamp mill, running through 400 tons of ore extracted from the Bonanza vein.

Native copper has been struck by the Hillischer brothers on the southwest side of Animas Peak on the 150 foot level, 350 feet from the shaft. A new two compartment shaft is being sunk in Animas Peak which is already down 365 feet.

High grade vanadium ore has been struck in the Vanadium Queen mine.

MINERAL SHOWS STRONG IN SAFFORD, ARIZ., MINES

C. E. Woodson, secretary of the Gold Crown Mining & Development company, of El Paso, the mines of which are in Graham county, 14 miles south of Safford, Ariz., has received word from Walter Sparks, vice president and manager, that the new incline shaft has reached a depth of 90 feet on the Sure Shot claim.

That it has begun showing strong mineralization, carrying iron pyrites, boronite and native copper.

At the 75 foot level a crosscut was run from the foot wall 17 feet without encountering the hanging. It was all the way through quartz carrying pyrites of copper and iron, boronite and native

Calisher's Bargain Basement

copper. These carried more or less gold and silver values.

OIL DISCOVERED NORTH OF SWANSEA, ARIZ.

The discovery of petroleum 18 miles north of Swansea, Yuma county, Ariz., was made by Jack Higgins and T. J. Powell on their own locations.

The new oil field has been traced northeast and southwest 18 miles, and all indications point to oil in unlimited quantities. There are numerous big sandstone dikes and after a core of shale, fragments of which, when broken, smell of petroleum.

RADIUM ORES IN TEXAS

Prof. W. Nevin has found a variety of pitchblende, one called nevinite, on the west bank of the Colorado river, five miles south of Bluffton, Llano county. It is a moundlike elevation, rising 27 feet above the river, consisting of great white quartz masses and crystalline red field spar, from five to 20 feet thick. In the irregular seams between the quartz and field spar, there are some layers of black iron mica, which often lead to the pockets of the ores of uranium, thorium and yttrium.

News Brevities

Train Batters. All afternoon trains are reported on time.

Mr. J. G. Franklin, of the firm of the Standard Grocery Co., left Saturday for the Pacific coast in the interest of his firm.

Telephone Strike in Arizona. Phoenix, Ariz., June 14.—The district council of the Brotherhood of Electrical Workers at San Francisco has called a strike of linemen of the Consolidated Telephone, Telegraph and Electrical company of Arizona, of which E. Randolph is president. The entire force at Phoenix, Globe and Tucson is out. Tucson has replaced the men. At other points the company is unable to do construction or repair work. Prescott and Nogales are not affected.

Abernathy Boys in New York

New York, June 14.—Mayor Gaynor had as visitors yesterday Louis and Temple Abernathy, sons of marshal Jack Abernathy, of Oklahoma, who has arrived and accompanied the young men to the city hotel. Mayor Gaynor complimented the youngsters on their feat in riding here from Oklahoma and congratulated their father in the possession of such sturdy and self-reliant sons.

Apricots are plentiful, we have them fresh every morning.

Jackson's Sanitary Grocery, Phone 353.

Young Safe Cracker

Denver, Colo., June 14.—Postoffice inspectors have been ordered from this city to Parmerlee, N. M., to take charge of probably the youngest safe cracker in criminal history. The prisoner, who has confessed to the robbery of the Parmerlee postoffice, is a 12-year-old Mexican. He broke open the safe like an experienced "vase" man, and took what money it contained. According to the boy's story he was carefully trained for the robbery by a gang of Mexicans.
